

POWER TILT AND POWER TELESCOPIC STEERING COLUMN

05I09-01

PRECAUTION

Ensure the negative terminal of the battery is disconnected when disconnecting the connectors of the motors and ECU, as the power tilt and power telescopic steering column uses AC voltages of approximately 200V for motor operation.

NOTICE:

When the negative (–) battery terminal is disconnected, initialize the following systems after the terminal is reconnected.

System Name	See page
Power Window Control System	01-20
Front Power Seat Control System	01-20
Back Guide Monitor System	01-20
