

# BACKGUIDE/MONITOR SYSTEM

05HQH-01

## PRECAUTION

### NOTICE:

When disconnecting the negative (-) battery terminal, initialize the following systems after the terminal is reconnected.

System Name	See page
Power Window Control System	01-20
Front Power Seat Control System	01-20
Back Guide Monitor System	01-20

### 1. POINTS TO NOTICE WHEN SERVICING

- (a) The maximum steering angle setting must be carried out with the engine on. Apply the parking brake, depress the brake pedal, move the shift lever to the P position, and ensure that the vehicle is not running.
- (b) Pay attention to the following points when servicing:
  - (1) When disconnecting the battery cable, "SYSTEM INITIALIZING" appears on the screen. In this case, correct the steering angle neutral point (see page 05-1913).
  - (2) When replacing the television camera ECU, "SYSTEM NOT READY" appears on the screen. In this case, set the maximum steering angle and steering angle neutral point, and adjust the line display position. In addition, when the television camera assy is replaced or displaced, readjustment of the line display position is required (see page 05-1914).
