DI8KF-01

# **Pattern Select Switch Circuit**

## **CIRCUIT DESCRIPTION**

Passenger sides J/B ECU detects the state of the pattern select switch.

### **WIRING DIAGRAM**

# **INSPECTION PROCEDURE**

HINT:

Incase of using the LEXUS hand-held tester, start the inspection from step to and incase of thot using the LEXUS hand-held tester, start from step 2.

1∏

Check[the[pattern[select[switch[using[LEXUS[hand-held[tester.

#### PREPARATION:

Connect[]he[]LEXUS[]hand-held[]ester[]]o[]he[]DLC[3.

### **CHECK:**

Check[]he[pattern[select[switch[using[DATA[LIST.

Proceed\_to\_next\_circuit\_inspection\_shown\_on problem\_symptoms\_table\_(See\_page\_DI-1071).

NG

**2**[]

Check[the[pattern[select[switch[See[page[DI-240]).

NG□

Replace[the[pattern[select[switch.

**OK** 

3∏

 $\label{lem:check_wire_harness_and_connector_between_pattern_select_switch_and_passenger side_J/B_ECU_(See_page_IN-35).$ 

NG

Repair or replace wireharness or connector.

OK

Proceed to next circuit inspection shown on problem symptoms table (See page DI-1071).
