DTC CHECK/CLEAR

1. DTC CHECK

(a) Check the DTCs.

    (1) Prepare the intelligent tester II.

    (2) Connect the intelligent tester II to the DLC3 at the lower part of the instrument panel.

    (3) Turn the ignition switch to the ON position and turn the intelligent tester II on.

    (4) Use the intelligent tester II to check the DTCs and the freeze frame data, and note or print the result (see the operator's manual for operating instructions).

    (5) to confirm the details of the DTCs.

2. DTC CLEAR

(a) Clear the DTCs.

    (1) The following procedures clear the DTCs and freeze frame data.

        • When using the intelligent tester II:

        See the operator's manual for instructions to clear the DTCs.

HINT:

Disconnect the battery negative terminal cable will clear DTCs.

In this case, initialization is required ().
